

PROFIT INFLATION STATION

Introducing the New Select-a-Vac® with Air Island

Why are you settling for a trickle of income from that wimpy air machine when you could enjoy the full-blast profits generated by our *Select-a-Vac*® with Air Island? Our new profit inflater raises the bar yet again, with seven choices in one compact unit. Your customers will love our high-capacity air pump, capable of inflating a typical passenger tire from flat to full in under 60 seconds! Then watch them turn remaining "air-time" into profit as they flip a switch to super-vac, turbo-vac, spot remover or fragrance dispensing.

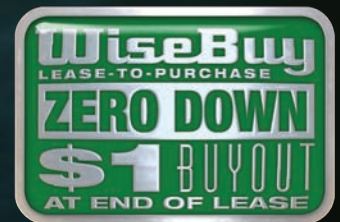

CASHLESS CONVENIENCE

We never stop innovating! Now, your customers can buy their car-care services without cash, using tokens, credit or debit cards.

NO MONEY DOWN

Your new *Select-a-Vac*® with Air Island will pump profits into your business now, without your putting down a single nickel to get in. Take advantage of our WiseBuy lease-to-purchase program, and start your profits flowing instantly!
