

When You Don't Order Our Islands and Canopies, We Understand ...

You're spending a small fortune to upgrade or build your car care facility. You're using top-of-the-industry equipment, including *Select-a-Vac* Car Care Systems, the most advanced profit generators in the industry. The last thing you need is another expenditure for our precision-engineered stainless steel islands and illuminated canopies. We understand!

We realize a beautiful, durable finish that enhances the look of your facility and identifies your equipment as the best in your market might not be important to you.

But consider this ... Your competition may see things differently. For more information, call, e-mail or log-on today.
